

Outdoor Education Goals

- To present a safe outdoor environment for all who participate.
- To provide an environment that nurtures learning and growth.
- To teach awareness and about positive stewardship of the Earth:
 - > *Human impact on the natural environment.*
 - > *How to better care and use the natural resources we have.*
- To get the students into the outdoors to show the benefit of a healthy lifestyle.
- To teach the core values of Caring, Honesty, Respect, and Responsibility

Explore the Wonder of Mt. Morris

At Mt. Morris your students can:

- Explore a pine and hardwood forest
- Examine prairie life
- Canoe on our small lake (Newton's laws of motion in practice)
- Grow in their sense of wonder about the world around them
- Enjoy good food and plenty of it
- Collect and examine creatures from our pond
- Sing around an evening camp
- Experience real world examples and applications of many of the proficiency test outcomes.
- Be safe, be themselves, and have fun

- High & Low Ropes constructed by ABEE Inc.
- 200 acres of woodland and prairie
- Scenic running stream
- 3 acre natural pond
- Full lodging and meal packages

Wildlife abounds at Mt. Morris Camp & Conference Center

High & Low Ropes Course

The Mt. Morris Camp & Conference Center Ropes and Challenge Course provides groups with an experience that promotes cooperation, trust, compassion, understanding, and communication, while also developing confidence and sense of worth of each member of the group. The end result is a team that functions more effectively, enhancing performance, decision making and leadership skills. The Ropes & Challenge Course is designed to create a work team dedicated to improving their productivity and performance. Cooperation is essential to accomplish common goals; consequently, participants come to value and maximize their own leadership styles, ideas and strengths in the team context. Ropes Course programs incorporate the use of the "high" and "low" ropes courses in order to provide groups with a uniquely different growth experience. Safety is our primary concern and our "challenge-by-choice" philosophy allows each participant to determine his or her own degree of personal challenge on the course. Each participant is encouraged to attempt each of the elements, once that commitment to try has been made our staff will encourage and help participants to reach, and in most cases, exceed their intended goals.

Food & Lodging

No outdoor education or camp experience is complete with plenty of appetizing and nutritious food! With that in mind, Mt. Morris offers meal service that can be served either buffet or cafeteria style. Menus are planned in conjunction with school or institution leaders to be certain menu choices are satisfactory. No lunch or supper at Mt. Morris is complete without a full service salad and fruit bar. Evening snacks are optional.

Mt. Morris offers several lodging possibilities depending upon your group's desire and what best suits the program. All facilities offer shower facilities and are heated. A separate lodging brochure is available upon request. You can also learn more about Mt. Morris facilities by checking our website:
